DETAILED ACTION

Election/Restrictions

1. Applicant's election of invention I, species I in the reply filed on 16 February 2005 is acknowledged. Because applicant did not distinctly and specifically point out the supposed errors in the restriction requirement, the election has been treated as an election without traverse (MPEP § 818.03(a)).
2. This application is in condition for allowance except for the presence of claims 5-19 to invention and species non-elected without traverse. Accordingly, claims 5-19 have been cancelled.

Allowable Subject Matter

3. Claims 1-4 are allowed.
4. The following is an examiner's statement of reasons for allowance:

The following are closest prior art references.

a) Lee et al. (U.S. Patent 6,097,529) discloses in FIG. 1 an NRZ-to-RZ converter with wavelength conversion.

b) Roberts (U.S. Patent 6,282,007 B1) discloses in FIG. FIG. 3 an interferometer operating as sampler for converting data from NRZ format to RZ format.

However, both Lee and Roberts fail to teach "an optical NRZ signal having a first wavelength and an RZ pulse train having the first wavelength are inputted on the input side of the first waveguide", in combination with the other limitations, as recited in claim 1.

Art Unit: 2633

Similarly, both Lee and Roberts fail to teach "an optical NRZ signal having a first wavelength and an RZ pulse train having a second wavelength are inputted on the input side of the first waveguide", in combination with the other limitations, as recited in claim 2.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
